About the Virtual Meet

Indian Science Congress Association is an apex scientific organization in the country and established in 1914. Since then it is promoting and inculcating the spirit of science through various activities. Each year scientists, policy makers and science administrators along with general public meet to improve the quality of research, advance and promote the cause of science in India. For which it has established 26 regional chapters. Tirupati chapter is one among them, pioneering in spreading the knowledge and inculcating scientific temper among students and researchers.

The Department of Zoology, S.V. University, invites participants to attend the “**International Webinar on New Horizons in Cancer Biology and Therapeutics**” to be held on February 6th & 7th, 2021. Department of Zoology is one among the premier departments in Sri Venkateswara University, Tirupati, India. The University was established in 1954 in the world-famous temple town of Tirupati, on the sprawling campus of 800 acres with a panoramic and pleasant hill view. This University is well known Nationally and Internationally for Academic and Research excellence. The University is accredited with A+ grade by NAAC and ranked as one among the best Indian Universities by updating infrastructure facilities.

With the crushing success of previous conferences organized by the Department of Zoology, we, on behalf of Indian Science Congress Association, Tirupati Chapter, welcome the scientific community to attend the above Virtual Seminar. This conference will focus on the latest and exciting innovations in different areas of cancer research, and also offer a unique and unprecedented opportunity for participants to virtual meet, network, and perceive new scientific interactions with eminent speakers from reputed institutes of India as well as USA.
